# ABOUT US

Uniconverse is an Agro, Stock, Gold mining and crypto mining platform, established to provide great services and make life easier for both the common man , we are a financial company with the customer at heart , the internet as our foundation, and technology as our lifeblood.

In today's world as one of the biggest financial program our leadership has extensive experience in both the internet and financial industries, we are committed to synergizing technology with finance by providing reliable, professional, intelligent and efficient products and services to ensure everyone is having a successful Investment with the company.

Individuals are an important part of the market and should not be ignored. They should be empowered with better information, tools, services, opportunities and lower costs. Respecting the investor is respecting the market. Technology is the future and it's vastly expands the human's trading capabilities in terms of time, scale and technique.

As a financial company driven by technology, we aim to offer an "all in one self directed Investment platform that provides excellent user experience, advanced intelligent tools and services full extended hours trading. Our 24/7 online help whenever needed.

# HOW WE WORKS

## INFRASTRUCTOR

We put in place a consensus algorithm, a procedure through which all the peers of the Blockchain network reach a common agreement about the present state of the distributed ledger.

## DEVELOPMENT

We established solitary organization that constructs a significant speculation portfolio and integrated blockchain technology agro, stock, gold mining and crypto mining production and management.

## MANIPULATING FLUCTUATION

We constructs trust in the computerized world by increasing proficient expectations and conveying quantifiable quality confirmation for the worldwide network protection industry.

## SMOOTH AND SECURE TRANSACTIONS.

All funds are protected by top-quality security protocol designed with maximum protection of assets. 100% protected end-to-end secured crypto MPC wallets, and air-gapped custodian storage by GK8.

## BLOCKCHAIN AGRO

<p>Our blockchain for business uses a shared and immutable ledger</p>	<p>Blockchain increases trust, security, transparency</p>	<p>Blockchain technologies can track all kinds of information regarding plants</p>	<p>Create a record of a plant's journey once it leaves the farm</p>
<p>Traceability of data shared across a business network</p>	<p>Delivers cost savings with new efficiencies</p>	<p>Our technology has increased agricultural productivity to the present, thereby increasing the profits of farmers</p>	<p>This technology enable more reliable monitoring and management of natural resources</p>
